

MORE THAN A DOOR

Our doors are chosen by homeowners who appreciate exceptional craftsmanship, timeless elegance and built-to-last quality. They quickly discover that all this good stuff means plenty more.

**A quieter, warmer and stylish home.
A more relaxed, peaceful and secure life.**

Quiet storms and cosy toes.

Close our doors and the world outside disappears.
Triple glazing keeps the noise down, while virtually
airtight seals keep the heat in. No thrum from lashing
rain or whistling, swirling wind. Door closed. Coat off.
Now you're home.

Our doors are at their best when the weather is at its worst.

For all you know, it could be blowing a gale outside, lashing rain or hailstones. Maybe all three at once. But you can't hear the wind's howl or feel the temperature drop. That's because you have an Apeer front door. Triple glazed, double rebated and twice the thickness of most others, it effortlessly keeps mother nature's wildest tantrums at bay.

VIRTUALLY AIRTIGHT

Our double sealed rebate is virtually airtight by creating an internal secondary seal.

EXTRA INSULATION

Along with our 70mm super-strong, highly insulating polyurethane core, glass elements are triple glazed for extra insulation. We can even gas-fill them for improved thermal performance.

Glassed units are also available with Low E-glass and can be gas filled to offer improved thermal performance. Low E-glass is only available in clear.

A DECISION TO PLEASE BOTH HEAD AND HEART

Having one of the world's most energy efficient doors is a smart decision for wise heads. But it's the way it repels the blatter of rain and silences the wind's howl that warms the heart. Fingers and toes too.

Good for the planet.
Even better for your wallet.

Sealing heat in while keeping cold out, they are **A-Rated** by independent testers and far exceed the industry benchmark. By keeping more heat in your home, you'll keep more cash in your wallet.

You're in safe hands.

We've thought of everything that can go wrong with your door. Then made sure it won't. From police-approved locks to rhino-resistant frames, you're in safe hands.

A great night's sleep.

Rest easy - our doors are as secure as they come. Good to know, whether you're tucked up at home or away for the night.

Every Apeer door comes with a multi-point locking system as well as a super-strong, highly insulating polyurethane core that far exceeds all Police-approved security standards.

Strength from within.

Inside every Apeer 70mm door there's a super-strong steel and metal reinforcing that forms part of the highly insulating polyurethane core. And with a vertical steel bar running top to bottom along the inside edge, our doors far exceed Police-approved security standards.

Extremely strong vertical steel reinforcing bar adds rigidity and security.

Super-strong, metal reinforced, highly insulating polyurethane core.

Extremely strong vertical steel reinforcing bar in our doors adds rigidity and security.

We've got your back.
And your front.

Install an Apeer door and you'll have the weight of our entire design team and security specialists protecting you and your home from intruders. Our doors comfortably exceed all industry standard impact and cut-through tests.

Secured by Design doors must be certified with laminated glass.

Toughened, triple glazing housed in reinforced mouldings with the optional extra of laminate glass for optimum security.

A strong coupling bar adds strength and stability.

Multi-point Yale locking system features two rollers, three hooks, two deadbolts and a latch. It secures the door from top to bottom.

Hardened steel hinge bolts make it virtually impossible to force open our doors or lift them off their hinges.

Ultimate Ultion Upgrade!

We also offer an optional upgrade to a high security 3* anti-snap Ultion Cylinder. Should a burglary take place within 5 years from the date of installation and entry was achieved by snapping an Ultion lock, **Ultion will pay you £2,000***.

*Activation required within 28 days of installation. Full T&Cs apply.

Doors with a unique personality and character: yours.

Your front door is the focal point of your home's facade. But it's more than just an entrance. It speaks to the world on your behalf. It reflects your personality and stands for the same things you do. If that's impeccable taste, craftsmanship and protecting your family from mother nature's tantrums you've come to the right place. And if it's also about standing out from the crowd, our standard colour choices or colour matching options are right up your street.

Perfectly yours.
You pick the colour, we match it.

Express your individuality with a virtually infinite combination of door styles, colours, glazing and accessories. If one of our 27 hues isn't exactly what you're looking for, our manufacturing process enables you to match your door to most colours. Simply bring along a RAL or BS colour reference and we'll match it.

LOVE ELEPHANTS?

We can colour match to your favourite animal - even if it's an elephant.

Metallic Colours are not available. There is an extra charge for Premium and RAL/BS colours. We may not be able to match all RAL/BS colours.

Check out our standard and premium colour palettes.

LOW MAINTENANCE

To keep your Apeer door looking great, gently wipe down your door with warm soapy water and a soft cloth.

Metallic Colours are not available. There is an extra charge for Premium and RAL/BS colours. We may not be able to match all RAL/BS colours.

Agate Grey is part of our standard colour range.

Every effort has been made to reproduce the colour of our Apeer doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to some colour deviation. The grain and colour on the Oak and Rosewood doors are not an exact match to the Oak and Rosewood PVC frames. Our Apeer door does not replicate the grain on the frame as it is a PVC foil. The grain and colour on the Oak and Rosewood doors are not an exact match to the Oak and Rosewood PVC frames.

Add a personal touch with bespoke, handcrafted glass designs.

You've chosen the door style and picked a colour that perfectly complements your home. Now for the finishing touch: glass designed by you and handcrafted by our in-house artisan glaziers.

CLEARLY YOURS

Our in-house glaziers have pulled together some of their favourite, on-trend designs. They are available across our range and are an easy way to make it clear that it's more than just a door – it's a welcome new addition to your family.

Doors that sound as good as they look.

The solid 'thwump' when you close an Apeer door sounds like no other. It's a signal of its superior construction, reinforced frame and virtually airtight seals. 'Thwump' – it's short for great looks, safer homes and cosy nights in by the fire.

Apeer may come in two formats but the principles behind each remain the same. Whether you choose the 70mm thick double rebate seal, or the ingenuity of the 44mm thick single rebate seal, both perform exceptionally well in terms of energy efficiency, security and appearance.

*Cutout shows Apeer 70mm on left and Apeer 44mm on right. The door codes featured in the brochure refer to Apeer 70mm door range.

Apeer 70mm Door Construction:
70mm super-strong, highly insulating polystyrene core. High strength, expanded steel and metal reinforcing. Double rebate draft seal with GRP inner frame. Handmade, triple glazed decorative units. Double steel hinge bolts and 116like grain.

Apeer 44mm Door Construction:
44mm super-strong, highly insulating polystyrene core. Double glazed Q seal warm edge super spacer system. Timber frame effect raised mouldings. Flush fit and 116like grain.

TRADITIONAL COLLECTION

Elegantly timeless, the Apeer Traditional Collection is designed to enhance homes with traditional good looks.

Rowton

WAIST-HIGH LOCK SYSTEM

Shown (right) with round escutcheon plate and Karcher lever handle.

Every effort has been made to reproduce the colour of our Apeer door and the coloured film in the decorative glass designs. However, the actual colour of the door and the glass designs may vary depending on the lighting conditions. Coloured film in glass designs is not an exact match to the door colour.

INTERNAL GLAZING FINISH

All-glass glazing trims are finished with stainless steel trims on the inside.

CONTEMPORARY FRAME

The Silka Collection is manufactured with a chamfered frame.

HINGE OPTIONS

All Silka doors are available with a choice of two hinges:

Flag Hinges

Butt Hinges

HANDLE OPTIONS

You can mix and match your handle choices meaning that you can have a different handle on the outside and inside of your door.

External view: Anthracite Grey shown with round escutcheon plate and 1200mm bar handle on the outside.

Internal view: Light Grey shown with round escutcheon plate and Karcher lever handle.

FINGER PULL HANDLE

Finger pull handle and round escutcheon plate (thumbturn available).

Please note: The staining on stainless steel components is common and is caused by the oxidation of surface contaminants on stainless steel. It is not an indication of quality and does not affect the structural integrity or the longevity of the material and periodic cleaning of the stainless steel trims will reduce the likelihood of tea staining.

SILKA COLOUR RANGE

The Silka finish suits specific colours, highlighted below.

Black Available outside and inside	Black with lines Available outside and inside
Anthracite Grey Available outside and inside	Anthracite Grey with lines Available outside and inside

Please note: The staining on stainless steel components is common and is caused by the oxidation of surface contaminants on stainless steel. It is not an indication of quality and does not affect the structural integrity or the longevity of the material and periodic cleaning of the material will reduce the likelihood of tea staining.

MODO COLLECTION

The very latest international
design trends influence our
cutting edge Modo Collection.

Somerton

Door AMD2, Glass ST6i, Sidelight Glass SB27
Shown in Anthracite Grey

Every effort has been made to reproduce the colour of our Apeer doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to slight variations in the colour of the film. The colour of the film is not an exact match to the door colour.

Furniture Shown: 1200mm Bar Pull Handle, SB27 clear visible border is 25mm.

Door AMD5, Glass SR30, Sidelight Glass SB27
Shown in Anthracite Grey

Elsdon

Furniture Shown: Karcher Handle shown in Stainless Steel, SB27 clear visible border is 25mm.

Please note: The staining on stainless steel components is common and is caused by the oxidation of surface contaminants on stainless steel. It is not an indication of quality and does not affect the structural integrity or the longevity of the material and periodic cleaning of the stainless steel items will reduce the likelihood of tea staining.

COLORO COLLECTION

Glossy. Glassy. Classy.
Our Coloro Collection offers
polished performance.

Every effort has been made to reproduce the colour of our Apeer door and the coloured film in the decorative glass designs. However, the actual colour of the door and the decorative glass designs may vary depending on the lighting conditions. The designs shown in sidelights may vary depending on sidelight width. Coloured film in glass designs is not an exact match to the door colour.

ACCESSORIES

Designed with care and crafted to last, our accessories have been created to complement our door collections. From traditional rustic metalwork to high-end polished chrome, you don't have to look further than the next few pages to complete your Apeer door.

BACKING GLASS OPTIONS

All of the door designs (except RG glass codes) featured throughout the brochure can be backed with a range of obscure glass to suit all requirements for energy efficiency, safety and privacy. This is our standard range but we can offer more styles upon request. Please note there may be an additional charge for non standard obscure glass patterns. There is no choice of backing glass for any of the RG glass code designs shown.

Minster

Stipplyte

Flemish

Contour

Cotswold

Satin

Please note Flemish glass once toughened can have a haze effect in the pattern, this is a normal part of the toughening process and is acceptable. New World for any errors or omissions contained herein. In order to meet customer demand New World reserves the right to change the supplier of patterned glass without prior notice.

Whilst care is taken to ensure that this brochure is as up-to-date and accurate as possible, no responsibility can be taken by New World for any errors or omissions contained herein. All measurements must be verified by surveyor on site. Drainage options only apply to PVC thresholds. Mullions and sightlights are fabricated as standard.
